School Policies Concerning Alcohol, Tobacco, and Other Drugs

Students at Archbishop Moeller High School are committed to following established alcohol, tobacco, and other drug policies of the school in two categories: General School Policy and Co-curricular Policy.

General School Policy:

Applies to all students: Each student at Moeller High School is subject to the expectations and consequences regarding alcohol, tobacco, and other drug use during the course of any school day, including summer-school sessions and school-sponsored activities.

Co-curricular Policy:

The policy below applies to each student who represents Moeller by participating in any club, organization, or athletic activity. This policy also applies to all students from other schools who represent Moeller High School in any activity.

Participation:

Participation in co-curricular activities involves a year-round commitment. This policy is in effect 12 months of the calendar year, 24 hours a day, on or off school property, and cumulative over the student's participation at Moeller High School.

Consequences:

Consequences for a violation of the co-curricular policy must be served in an activity in which the student has previously participated. All consequences are effective immediately from the time they are determined. If a student is found in violation of the co-curricular policy, the following consequences will apply (all expectations and consequences are explained in detail in the *Moeller Family Resource Guide*):

1. Loss of Participation: Loss of participation will range from 10% of an activity up to complete loss of participation, depending on the type and number of violations and whether the student accepts professional assistance or professional evaluation.
2. Leadership: Club/Activity officers, team captains, and other elected or appointed student leaders of co-curricular activities will have their leadership privileges suspended for at least the time that these consequences are in effect. They can also be suspended permanently.
